Magnet Recycling

[Digital Media Fab Lab](#)

Fine Arts Building
540 W Call St
Tallahassee, FL 32301

Magnet Disposal

If possible, thermally demagnetize by bringing them to their Curie point, for neodymium 176°F, or use a demagnetizing tool. Shield charged magnets with steel or iron sheets, place in a metal container to protect from other magnetic objects within the landfill.

Assembled Electronic Cords, Cables
